PREPARING YOUR BUSINESS FOR JAN 26 RATE CASE

The Postal Playbook for 2026: What's Changing, What's Next, and How to Stay Ahead

January and July are reshaping the mailing landscape—and the details matter. From redesigned postage statements and updated Mail.dat/Mail.XML requirements to shape-based SCF routing, new USPS promotions, Plus One expansion, and the emergence of Heavy Printed Matter, the next rate cycles mark a turning point in how mail is prepared, priced, and processed. Our **Digital Magazine Digest** breaks down what's changing in January 2026, what the July rate case signals for the future, and how USPS's shift away from ADCs and NDCs toward a cleaner, shape-driven network will impact your workflows, costs, and opportunities. If you want clarity instead of complexity—and a roadmap to stay compliant while maximizing savings—this is the must-read guide to the future of mail.

from all of us at
BCC SOFTWARE

As the year comes to a close, all of us at **BCC Software** want to extend our warmest holiday wishes to our customers, partners, industry peers, and colleagues across the mailing and postal community.

Thank you for your continued trust, collaboration, and partnership. Your innovation, resilience, and commitment to excellence are what drive this industry forward—and we're proud to work alongside you as we navigate change, modernize workflows, and create new opportunities together.

We wish you a joyful holiday season filled with time to recharge and celebrate, and a New Year ahead marked by success, growth, and continued innovation. We look forward to building what's next—together—in the year to come.

Happy Holidays and best wishes for a bright New Year,
The BCC Software Team

BRINGING ENHANCED MAIL TRACKING TO INFOXCHANGE '26

Data is the New Postage & TrackNTrace Is Leading the Way
August 4-13, 2026

At Information Exchange, from **August 4-13, 2026**, BCC Software will showcase how **TrackNTrace™** is redefining mail intelligence through both virtual sessions and live conference presentations. Attendees will get a preview of how real-time delivery visibility transforms mail from a static cost into a dynamic, measurable asset—powering smarter campaign optimization, stronger customer engagement, and more confident decision-making. These sessions also highlight BCC Software's dedicated, focused investment in the next evolution of TrackNTrace, with enhanced **tracking, analytics, and reporting capabilities** purpose-built to give mailers deeper insight, greater control, and actionable intelligence at every stage of the mail journey.

RENEWAL REMINDER! GET YOURS IN BY EOY

Don't wait—renew now and keep your operations moving forward without missing a mailpiece or data point.

As we close out 2025, now is the perfect time to secure your BCC Software renewal and step confidently into the year ahead. Renewing before year-end ensures uninterrupted access to the industry's most trusted postal, presort, and data solutions—so your teams are fully prepared for January changes, evolving USPS requirements, and new opportunities to drive efficiency and savings. Lock in your renewal early to avoid last-minute delays, simplify budgeting, and start 2026 with the tools, support, and innovation you rely on already in place. Don't wait—renew now and keep your operations moving forward without missing a mailpiece or data point.

DATA QUALITY ISN'T OPTIONAL REDUCE YOUR UAA

UAA Mail in 2026: The Silent Drain on Budgets, Campaigns, and Customer Experience

DID YOU KNOW?

First Class mail accounts for nearly 30 billion UAA mail pieces wasted every year? Or that marketing mail accounts for over 17 billion UAA mail pieces wasted every year?

Every year, billions of mailpieces enter the U.S. Postal Service® ecosystem—but not all of them reach their intended destination. A significant portion become **UAA (Undeliverable As Addressed)** mail, an often-hidden drain on postal operations, marketing budgets, response rates, and consumer experience.

TAKE ADVANTAGE OF ePAF SUBMISSIONS

Take Advantage of Electronic PAF Submission for a Faster, More Secure PAF Processes

For future PAF requests you can create and renew PAF's quickly and easily through the software or on our BCC Customer Portal. Benefits include:

- **More Secure:** ePAF ensures a safer, more reliable submission process compared to hardcopy, reducing errors and delivery risks.
- **Faster Processing:** Electronic submission allows instant transmission and quicker turnaround—no waiting on mail or manual handling.
- **More Convenient:** Customers can easily create or renew PAFs directly within Mail Manager or the BCC Customer Portal anytime.
- **Reduced Rejections:** The ePAF system minimizes issues related to missing or incorrect information that often occur with paper forms.
- **Environmentally Friendly:** Eliminates the need for physical copies and mailing, supporting a more sustainable process.
